

Is your New Year's resolution to find a healthier workplace? We know it's tough out there. Practices are stuffed full of referrals, self-care is non-existent, supervision is sparse, therapists are burnt out... At Wood Psychotherapy, we are working to change the narrative of the mental health field.

There is no reason you can't work at your own pace, see the client populations you want, and have great work-life balance. At Wood Psychotherapy, we foster your development and teach you how to be a competent, ethical, confident therapist. You deserve to have a workplace that cares about you as an individual, not just about the bottom line.

Who are we? We are a practice that specializes in 'Reproductive Mental Health'. We frequently work with clients struggling with sexual issues, infertility, trauma, and perinatal mood & anxiety disorders. Wood Psychotherapy serves a diverse range of clients, including BIPOC, LGBTQIA+, kink, and poly clients. We are currently looking for a therapist to join our growing practice. We are open to all therapeutic modalities and populations.
